Subject: System Enhancements to Support the New Hampshire Medicaid Provider Directory

New Hampshire Medicaid is providing notice of recent system improvements designed to support our enhanced Provider Directory. Providers now have the ability to update various demographic details that are posted on the provider directory such as hours of operation, website, age range served and available special accommodations.

These updates can be made by your Organization Administrator, who will also have the ability to assign this privilege to other users within your organization.

To access this functionality, please log into the MMIS Health Enterprise Portal, and navigate through the following menu paths: Provider, Self-Service, Accommodations.

We kindly request that you log into the MMIS Health Enterprise Portal and review your organization's demographic information to ensure the provider directory reflects the most accurate and up-to-date details. Keeping this information current helps to connect members, providers, and community partners with the right services.

If there are any questions on this notice, please contact the Provider Relations Unit at (603) 223-4774 or (866) 291-1674.

Thank you,

NH Medicaid Provider Relations
