1. NH Medicaid Provider Billing Manuals Overview

New Hampshire (NH) Medicaid Provider Billing Manuals include two volumes which must be used in conjunction with each other. Policies and requirements detailed in these manuals are established by the NH Department of Health and Human Services (DHHS), also referred to as the Department.

It is critical that the provider and the provider’s staff be familiar with, and comply with, all information contained in the General Billing Manual – Volume I, and this Provider Specific Billing Manual – Volume II.

- The General Billing Manual – Volume I: Applies to every enrolled NH Medicaid provider (hereinafter referred to as the provider) who submits bills to NH Medicaid for payment. It includes general policies and procedures applicable to the NH Medicaid Program such as provider responsibilities, verification of member eligibility, covered and non-covered services, service authorizations, medical necessity, third party liability, surveillance and utilization review/program integrity, access to fee schedules, claims processing, and obtaining reimbursement for providing services. This manual also includes general information on how to enroll as a NH Medicaid provider. The Appendices section encompasses a wide range of supplemental materials such as Fee Schedules, Contact Information, Provider Type List, Sample Forms and Instructions, as well as other general information.

- The Provider Specific Billing Manual – Volume II: Specific to a provider type and designed to guide the provider through specific policies applicable to the provider type.

Intended Audience

These manuals are not designed for use by NH Medicaid members (hereinafter referred to as members).

Provider Accountability

Providers should maintain both billing manuals, make them available to their staff and authorized billing agents, and be aware of all policies and procedures, as well as any changes to policies and procedures, that relate directly or indirectly to the provision of services and the billing of services for members.

Document Disclaimer/Policy Interpretation

It is our intention that the provider billing manuals, as well as the information furnished to providers by the staff of the Department’s fiscal agent, be accurate and timely. However, in the event of
inconsistencies between the fiscal agent and the Department regarding policy interpretation, the Department’s interpretation of the policy language in question will control and govern.

**Notifications and Updates**

Providers are notified of NH Medicaid Program changes and any other changes applicable to participating providers through several types of media including provider bulletins, provider notices, memos, letters, web site updates, newsletters and/or updated pages to the General Billing Manual – Volume I, and/or the Provider Specific Billing Manual – Volume II. It is important that providers share these documents with their billing agents and staff.

Billing Manual updates are distributed jointly by the Department and the fiscal agent. Providers receive notification of manual updates through a message sent to each provider’s message center inbox via the web.

**Description of Change Log**

All changes made to this manual are under change control management and are approved by the Department and/or its associated organizations. The change log is located at the front of this document.

**Contacts for Billing Manual Inquiries**

Billing manual inquiries may be directed to the fiscal agent’s Provider Relations Unit (refer to General Billing Manual – Volume I Appendices Section for all Contact Information).

Questions relating to policy issues outlined in this manual may be directed to the fiscal agent’s Provider Relations Unit for referral to the appropriate Department contact.
2. Provider Participation and Ongoing Responsibilities

Each participating provider of home infusion services shall be:

- Registered or licensed in the state in which the provider practices;
- A practitioner authorized to dispense pharmaceuticals, pursuant to RSA 318 or applicable state law in which the home infusion provider is located; and
- An enrolled NH Medicaid provider.
3. Covered Services and Requirements

With the exception of those items specified in He-W 570, the following FDA approved pharmaceuticals, if rated effective, and if produced by manufacturers who are participating in the United States Department of Health and Human Services’ (USDHHS) drug rebate agreement, shall be covered when prescribed by a practitioner and subject to the service authorization (also known as prior authorization) requirements in He-W 570.

1. Legend medications, only when prescribed as part of the course of medical treatment for a specific illness, injury, or disease for use specified by the FDA, or for non-experimental purposes, as supported by accepted medical practice, and in accordance with He-W 570;

2. Non-legend medications, with the exception of those specified in He-W 570, and only when prescribed as part of the course of medical treatment for a specific illness, injury, or disease for use specified by the FDA, or for non-experimental purposes, as supported by accepted medical practice, and in accordance with He-W 570;

3. The following non-legend medications, only when prescribed or dispensed as generic drugs:
   a) Antihistamines;
   b) Antacids and H2-Receptor Agonists;
   c) Analgesics, salicylates, and antipyretics;
   d) Magnesium, iron, niacin and calcium;
   e) Ganglionic stimulants;
   f) Laxatives and cathartics;
   g) Hyperglycemics;
   h) Topical steroids;
   i) Vaginal and topical antifungals;
   j) Topical antimicrobials; and
   k) Lice treatments;

4. Compound pharmaceuticals when at least one ingredient can be identified by a rebatable NDC; and

5. Nutritional supplements when needed to sustain life.

Refer to the Provider Specific Billing Manual – Volume II, Medical Supplies and Durable Medical Equipment, for supply and equipment information.

Service Limits

The following dispensing limitations shall apply to prescriptions:

1. Pharmacists shall follow current standards of practice in accordance with Ph 501;
2. Non-controlled drug prescriptions shall be refilled pursuant to Ph 704;
3. Controlled drug substances shall follow dispensing requirements pursuant to RSA 318-B:9,IV.;
4. Controlled drug substances shall follow refill requirements pursuant to 21 CFR 1306.22;
5. Refill extensions authorized by the prescribing practitioner shall be treated as a new prescription; and
6. Maintenance medications shall be dispensed in a quantity sufficient to treat the member as follows:
   a) Solid oral medications shall be dispensed as:
      i. A minimum supply of 28 days and a maximum supply of 84 days for oral contraceptives; and
      ii. A minimum supply of 30 days and a maximum supply of 90 days for solid oral medications with the exception of oral contraceptives, as described in He-W 570;
   b) If the prescribing practitioner's professional judgment indicates possession of the minimum supply of solid oral medications, as described in He-W 570.08, would not be in the member's best medical interest, the prescribing practitioner shall clearly indicate, on the prescription, that an exception to the minimum supply is being made; and
   c) For non-solid medications, such as ointments, aerosols, injectables, and liquids, the medication shall be dispensed in the most commonly dispensed sized container to cover a minimum of 7 days of therapy.
4. Non-Covered Services

Non-covered services are services for which NH Medicaid will not make payment.

There may be non-covered services directly associated with your provider type (such as those listed below or those for which there is no medical need), but some non-covered services cannot be directly associated with a specific provider category. Therefore, providers should review the list of other examples of non-covered services in the “Non-Covered Services” section of the General Billing Manual – Volume I.

If a non-covered service is provided to a member, the provider must inform the member, prior to delivery of the service, that it is non-covered by NH Medicaid, and that should the member still choose to receive the service, then the member will be responsible for payment. If this occurs, the Department suggests that you maintain in your files a statement signed and dated by the member that s/he understands that the service is non-covered and that s/he agrees to pay for the service.

Non-covered items for home infusion include:

1. Experimental or investigational pharmaceuticals not approved by the FDA;
2. Medications listed by the FDA as being DESI drugs or IRS drugs;
3. Legend and non-legend medications that are not part of a medical treatment for a specific illness, injury or disease;
4. Non-legend medications when:
   a) A legend medication effecting the same health outcome is available, and:
      i. Is more clinically effective; or
      ii. Is therapeutically equivalent and more cost effective; or
   b) The non-legend medication is being used to primarily treat discomfort or to maintain comfort, including but not limited to:
      i. Anti-diarrheals;
      ii. Anti-flatulants;
      iii. Nasal decongestants;
      iv. Eye and ear preparations; and
      v. Topical anti-pruritics;
5. Non-legend medications and supplies, which are household and medicine chest items, including, but not limited to:
   a) Band-Aids;
   b) Corn plasters;
   c) Contact lens products;
   d) Cough drops and lozenges;
   e) Mouthwash;
   f) Nursery supplies;
   g) Nutritional supplements when not needed to sustain life;
   h) Odor barrier products;
   i) Personal hygiene items;
j) Sunscreen;
k) Soaps and cleansers;
l) Acne products;
m) Products to mitigate seborrheic dermatitis; and
n) Fluoride preparations;

6. Legend and non-legend medications used for the symptomatic relief of cough and colds, pursuant to Section 1396r-8(d)(2)(D) of the Social Security Act;

7. Legend and non-legend medications used for cosmetic purposes or hair growth, pursuant to Section 1396r-8(d)(2)(C) of the Social Security Act;

8. Legend and non-legend medications which enhance or promote fertility or procreation, or for which the labeled use is ovulation stimulation, pursuant to Section 1396r-8(d)(2)(B) of the Social Security Act;

9. Legend and non-legend medications without a prescription from a licensed practitioner;

10. Legend and non-legend medications when used for the treatment of sexual or erectile dysfunction, unless such agents are used to treat a condition, other than sexual or erectile dysfunction, for which the agents have been approved by the Food and Drug Administration, pursuant to Section 1396r-8(d)(2)(k); and

11. Items that is free to the general public.

Refer to the Provider Specific Billing Manual – Volume II, Medical Supplies and Durable Medical Equipment, for supply and equipment information.
5. Service Authorizations (SA)

A service authorization (SA), also known as a prior authorization (PA), is an advance request for authorization of payment for a specific item or service.

Service authorizations are reviewed by the Department. The contact information in the Appendices or on any SA related forms should be consulted for the name and method of contact.

Please refer to the Provider Specific Billing Manual – Volume II, Medical Supplies and Durable Medical Equipment (DME) for service authorization information relative to DME. For drugs requiring service authorizations, please refer to the NH Medicaid Pharmacy Program website at http://www.dhhs.state.nh.us/DHHS/MEDICAIDPROGRAM/PBM.htm

Approval or Denial of Service Authorization Requests

The Department will make a decision on the service authorization request based on approved clinical guidelines. Once a decision is made, the Department will either:

- Grant approval of the service authorization request verbally during the telephone request;
- Grant approval by mail or by facsimile;
- Suggest an alternative service other than the one requested to better meet the clinical need based on approved clinical guidelines; or
- Issue a denial.

When a service authorization request is denied, written notice of the denial is mailed to the member, and a copy of the denial faxed or mailed to the ordering practitioner to include the following:

- Reason for the denial and a copy of the approved clinical guidelines used to make the decision;
- Information on how the member can file an appeal; and
- Information that a denial may be appealed by the member within 30 calendar days from the date the denial was issued.

Notices of approval are faxed or mailed to the ordering provider and to the service provider.
6. Documentation

The provider must maintain supporting documentation for each service for which a claim has been submitted to NH Medicaid for reimbursement, including all medications dispensed including specific refill orders documented at the time of original fill. The provider shall also maintain all letters of medical need described in He-W 571 and prescription documentation.

Retention of such documents shall meet the requirements of RSA 318:47-c, except that such records shall be maintained for a period of at least six years from the date of service or until resolution of any legal action(s) commenced in the six year period, whichever is longer. Please see the “Record Keeping” section of the General Billing Manual – Volume I, for documentation requirements.

The home infusion provider shall make available to DHHS the following documents for utilization and review purposes:

1. All prescriptions for both members and non-members filled during the time period specified by DHHS, with all identifying information blocked out;
2. All price lists that were in effect for such time period; and
3. Invoices showing the actual acquisition cost of the pharmaceuticals and supplies.
7. Surveillance and Utilization Review (SURS) – Program Integrity

The purpose of a Medicaid Surveillance and Utilization Review (SURS) program which, in NH, is administered by the Department’s Program Integrity Unit is to perform utilization review activities to identify, prevent, detect, and correct potential occurrences of fraud, waste and abuse. These utilization review activities are required and carried out in accordance with Federal regulations at 42 CFR 455 and 42 CFR 456, and they are done to ensure that accurate and proper reimbursement has been made, for care, services and/or supplies that have been provided to a member, and for which a provider has received payment.

Utilization review activities may be conducted prior to payment, following payment, or both. These activities include, but are not limited to, conducting provider reviews. These reviews may be selected at random, generated from member complaints, other providers, anonymous calls, or from the SURS reporting system.

There are various outcomes that may result from Program Integrity review activities. They include, but are not limited to:

- Recovery of erroneous and improper provider payments;
- Provider education regarding appropriate documentation to support the submission and payment of claims;
- Ensuring that the provider has developed a corrective action plan based on the findings of the review. This includes conducting follow-up reviews to verify that the provider is complying with the corrective action plan, and continues to provide and bill for services provided to members, in accordance with the rules and regulations governing the NH Medicaid Program;
- Potential referral to appropriate legal authorities – including the NH Medicaid Fraud Control Unit (MFCU) and the Federal Office of Inspector General (OIG);
- Potential termination from the NH Medicaid Program; or
- Other administrative actions.

If a provider is found to have abused the NH Medicaid Program requirements, the provider may be restricted, through suspension or otherwise, from participating in the NH Medicaid Program for a reasonable period of time. In addition, the provider may also have their claims placed on a prepayment pend or hold status for additional review by the Program Integrity Unit.

For additional information regarding utilization review, please refer to the SURS – Program Integrity section of the General Billing Manual – Volume 1.
8. Adverse Actions

An adverse action may be taken by the Department due to a provider’s non-compliance with Federal regulations, State laws, Department rules, policies or procedures. See the “Adverse Actions” section of the General Billing Manual – Volume I – regarding the types of adverse actions the Department is authorized to take against non-compliant providers.
9. Medicare/Third Party Coverage

Under federal law, the Medicaid program is the *payer of last resort*. All third party obligations must be exhausted before claims can be submitted to the fiscal agent in accordance with 42 CFR 433.139, except for Medicaid only services and claims for prenatal care of pregnant women or claims for preventive pediatric services, including EPSDT (this includes dental and orthodontic services in New Hampshire). Additional information on exclusions is outlined in this section or in the General Billing Manual – Volume 1. Providers who receive payment in full from a third party are not required to file zero-payment claims with NH Medicaid.

A provider must first submit a claim to the third party within the third party’s time limitations. If a third party or primary insurance plan does not pay at or in excess of the applicable NH Medicaid reimbursement level, a provider may submit a claim to NH Medicaid, which is processed based on the applicable reimbursement rate minus any payment received from all other resources. Commercial health insurance coverage often provides a higher payment than does NH Medicaid.

When a third party denies a claim, for any reason, a copy of the notice of denial from the third party *must be included* behind the claim submitted to NH Medicaid. When Medicare denies a claim, a copy of the Explanation of Medicare Benefits must be attached behind the claim that is submitted. For claims not submitted on paper, the Medicare or third-party denial is considered a claim attachment.

Detailed Medicare/Third Party Liability (TPL) information is found in the General Billing Manual, including handling discrepancies in TPL resource information, correcting erroneous TPL information, and exceptions to third party filing requirements.

When a member is also covered by Medicare, the provider must bill Medicare for all services before billing NH Medicaid. The provider must accept assignment of Medicare benefits in order for the claim to “cross over” to NH Medicaid. The crossover process works only for Medicare approved services; Medicare denied services and Medicare non-covered services are addressed in this section. NH Medicaid pays crossover claims only if the service is covered by NH Medicaid.

Certain services that are not covered by Medicare *may be* covered by NH Medicaid for dually eligible members. Services identified in the Medicare billing manual and HCPCS coding manuals as non-covered by Medicare may be billed directly to NH Medicaid who will determine whether or not the service is covered and can be reimbursed by NH Medicaid.

This does not apply to QMB Only members whose benefits are limited to the Medicare premiums and payment toward the Medicare deductible and coinsurance. Therefore, if Medicare does not cover the service, there is no NH Medicaid payment available for QMB members.

Detailed Medicare/Third Party Coverage guidelines are found in the General Billing Manual – Volume I.
10. Payment Policies

Payment for pharmaceuticals shall be:

1. Made for products whose manufacturer has a signed rebate agreement with the federal DHHS, or for single or innovator multiple-source products exempt from such agreements, pursuant to Section 4401 of P.L. 101-508, OBRA '90;

2. Reimbursed at the lesser of the following:
   - The EAC plus the dispensing fee;
   - The usual and customary charge to the general public;
   - The NHMAC plus the dispensing fee; or
   - The FUL plus the dispensing fee; and

3. Subject to the following conditions and restrictions:
   a) The payment for multiple source drugs, listed as having a FUL by the federal DHHS, shall be reimbursed at a rate which does not exceed the FUL plus the dispensing fee, except as determined by the Centers for Medicare and Medicaid Services (CMS) of the USDHHS;
   b) The payment for multiple source drugs, listed as having a NHMAC by DHHS, shall be reimbursed at a rate which does not exceed the maximum allowable cost plus the dispensing fee;
   c) The NHMAC and FUL shall not apply when a practitioner certifies on the face of the prescription in his/her own handwriting, pursuant to He-W 570.09, that a specific brand of drug, which is a NHMAC or FUL drug, is medically necessary for a particular member;
   d) The payment for any refill prescriptions for the same member for solid oral maintenance medications within a time period that does not allow for usage of 75% of the supply of the prescription shall be only for the cost of the medication unless the reason for the exception is documented on the prescription or the practitioner's order; and

4. The payment for compound prescriptions and sterile preparations for parenteral use shall be at the rate established by DHHS.

Refer to the Provider Specific Billing Manual – Volume II, Medical Supplies and Durable Medical Equipment, for equipment, devices and supplies payment information.
11. Claims

All providers participating in NH Medicaid must submit claims to the fiscal agent in accordance with NH Medicaid guidelines. Providers should note that NH Medicaid claim completion requirements may be different than those for other payers, previous fiscal agents, or fiscal agents in other states.

Providers participating in NH Medicaid are responsible for timely and accurate billing. If NH Medicaid does not pay due to billing practices of the provider which result in non-payment, the provider cannot bill the member.

Claim completion guidelines in this manual should be followed for instructions on specific fields. The NH Specific Companion Guide, which can be found at www.nhmmis.nh.gov, (see provider manuals under the provider tab) should be used for electronic claim filing instructions. While field-by-field requirements are shown for paper claims; the same required data is captured through web portal claim entry and through electronic submissions to EDI. Web portal submissions feature step-by-step claim completion instructions as well as tools such as Online Help to assist providers in correct claim completion.

Regardless of the method by which claims are submitted, information submitted on the claim by the provider represents a legal document. Neither the fiscal agent nor State staff can alter any data on a submitted claim.

The following claim-related topics are found in the General Billing Manual – Volume I:

- Claims submission via EDI, web portal, paper;
- Claims processing – edits and audits, transaction control numbers, line item vs. header processing, claim status, remark/EOB codes;
- Claim resubmission;
- Claim adjustments and voids;
- Medicare cross-overs;
- Claims payment; and
- Remittance advice.

Providers will be notified of payment or denial via a Remittance Advice, usually received in electronic format or via the web portal.

Denied claims should be resubmitted only if the reason for the denial has been corrected.

Paid claims cannot be resubmitted; resubmission of a paid claim will result in a denial as a duplicate. Paid claim corrections must be made through the adjustment process. If a paid claim has a line item denial, the individual line charge can be resubmitted.

Corrected claims and denied line items can be resubmitted only if the denial was due to erroneous, updated or missing information which is now corrected. Providers should never resubmit claims that are currently in process (suspended).

Any claim denied for failure to be submitted or resubmitted in accordance with timely filing standards will not be paid. Denied claims that have been corrected must be resubmitted as a new claims transaction on paper, via the web portal, or electronically via EDI.
Timely Filing

In accordance with federal and state requirements, all providers must submit all initial claims within one year following the earliest date of service on the claim.

Except as noted below, NH Medicaid will not pay claims that are not submitted within the one-year time frame.

Claims that are beyond the one-year filing limit, that have previously been submitted and denied, must be resubmitted on paper, along with Form 957x, “Override Request” located on the NH MMIS Health Enterprise Portal web site at www.nhmmis.nh.gov. A copy of the RA with the original billing date and the denial circled must also be attached. This resubmission must be received within 15 months of the date of service. If this time frame is not met, the claim will be denied.

The only other circumstance eligible for consideration under the one-year override process is for claims for NH Medicaid covered services for members whose NH Medicaid eligibility determination was delayed. The claim should be submitted as detailed above.

Diagnosis and Procedure Codes

All NH Medicaid services must be billed using the appropriate industry-standard diagnosis and procedure codes. One procedure code must be provided for each charge billed.

The home infusion provider shall submit pharmacy, medical supply and equipment claims with Healthcare Common Procedure Coding System (HCPCS) codes (and NDC codes where applicable).

The most current version of the ICD-CM diagnosis code series should be utilized. Claims without the required diagnosis, or procedure codes will be denied.

Service Authorizations (SAs)

A Service Authorization (SA), also known as a Prior Authorization (PA), is an advance request for authorization of payment for a specific item, or service.

Providers must obtain pre-approval and a corresponding service authorization number when outlined as required in this manual. The claim form allows the entry of a service authorization number. However, NH Medicaid does not require the service authorization number on the claim form. If providers choose to enter the SA number on the claim, the SA number must be an exact match of the number stored in the MMIS.
Required Claim Attachments

All attachments must be submitted in hardcopy or via fax. Providers that submit claims on paper claims should have the claim attachment stapled behind the claim form. Providers that submit claims electronically or via the NH MMIS Health Enterprise Portal must first submit the claim and obtain a Transaction Control Number (TCN) for the line requiring the attachment. Attachments in hard-copy format must then be sent to the fiscal agent with a cover sheet identifying the TCN for the claim. Failure to provide the TCN on the submitted attachments could result in claim denial due to missing or incomplete information.

When submitting a claim via the NH MMIS Health Enterprise Portal, providers must indicate in the claim form if there is an attachment to support the claim. Providers should answer yes to the question “Does this claim have attachments?” and click “Add Attachment” Note: Please select Delivery Method “by Mail” or “by Fax” to submit attachments.

Following claim submission a confirmation page will generate. Please print the confirmation page and submit it as a cover page with the claim attachments. If you are unable to print the confirmation page please write the 17 digit TCN on the attachment.

- **Please mail claim attachments to:**
  NH Medicaid Claims Unit  
  PO Box 2003  
  Concord, NH 03302

- **Please fax claim attachments to:**
  (888) 495-8169

If you are submitting EDI claims, paper attachments to Electronic 837P claims are indicated in the 2300 PWK segment, the 2400 PWK segment, or both. The hard copy attachment is submitted via fax or on paper and linked to the related claim by means of an Attachment ID (your TCN).

Examples of, but not inclusive of, when a claim attachment is required are when another insurer is primary and has denied coverage for the service or a 957x form is required because the filing limit was not met.
Claim Completion Requirements for Home Infusion

Home infusion providers are required to submit claims to NH Medicaid using the CMS1500 paper form or the electronic version, an 837P. Unless you are submitting a claim after Medicare has paid or allowed the charge, this claim would be a crossover and you would submit the same claim type you submitted to Medicare.

Paper claims are imaged and will then go through the OCR process as the first steps in claim processing and payment. You can prevent delays to your anticipated payment date by following these suggestions:

1. DO NOT submit laser printed red claim forms.
2. DO NOT use highlighters on any claim form(s) or adjustments(s). Highlighted area show up as black lines, just as they do when highlighted forms are photocopied or faxed.
3. DO submit only RED UB-04 or HCFA claims forms. Fixed claims or claim copies will not be accepted.
4. DO use typewritten (BLOCK lettering) print when filling out claim forms; handwritten or script claims can cause delays and errors in processing.
5. DO ensure that your printers are properly aligned, and that your print is dark and legible, if you are using a printer to create claim forms.
6. DO use only black or blue ink on ALL claims or adjustment that you submit to the fiscal agent. The fiscal agent imaging/OCR system reads blue and black ink.
7. DO make all appropriate corrections prior to re-submitting the claim(s) or adjustment(s).
8. DO call the NH Medicaid Provider Relations Unit at (603) 223-4774 or 1 (866) 291-1674 if you have questions.

The CMS1500 form must be both signed and dated, on or after the last date of service on the claim, in box 31. Acceptable forms of signature are an actual signature, signature stamp, typed provider name or signature on file.

Please note the person authorized by the provider or company who is allowed to sign the form is based on the company’s own policy for authorized signers.

Paper claims and other documents can be mailed to:

NH Medicaid Claims Unit
PO Box 2003
Concord, NH 03302-2003

Once your claim is processed you will receive a claim number or transaction control number (TCN). This is a 17 digit number.

Example: 13091831230000050 Breakdown: 13091 8 3123 000005 0

The format is: YYDDD M BBBB NNNNNN T, where

- YYDDD is the Julian date when the batch was created.
• M is the media source, such as 1-web, 2-Elec Xover, 3-EMC, 4-System Generated, 5-Encounter, 7-OCR and 8-Paper.
• BBBBB is the batch number.
• NNNNNN is the document number.
• T is the transaction type.

NH Medicaid requires the submission of a carrier code to identify other insurance coverage. A carrier code is a ten (10) digit code created by New Hampshire which identifies who the primary insurance carrier is. It is used in place of the insurance carrier name to streamline the claims processing. This code is used in the appropriate field on a claim, for:

• CMS-1500 (or professional claim), it is box 9D.

For example: One of the most common used is Medicare Part D carrier ID: 0000008888.

The list of Carrier IDs for other insurance companies can be accessed on nhmmis.nh.gov Web Site

• On the Documentation menu, click Documents & Forms.
• On the Documents & Forms page, click the Carrier ID link
• To print a copy, right click and select Print to your local printer.

If the insurance company is not listed, contact the Third Party Liability Call Center at (603) 223-4774 or 1 (866) 291-1674 for the correct code to use.

### CMS-1500 Claim Form Instructions

<table>

</table>
| 24I    | ID Qualifier (Lines 1-6) | **Required**-Enter in the shaded area of 24I the qualifier identifying if the number is a non-NPI. The Other ID# of the rendering provider should be reported in 24J in the shaded area.  
The NUCC defines the following qualifiers used in 5010A1:  
0B State License Number  
1G Provider UPIN Number  
G2 Provider Commercial Number  
LU Location Number  
ZZ Provider Taxonomy (The qualifier in the 5010A1 for Provider Taxonomy is PXC, but ZZ will remain the qualifier for the 1500 Claim Form.)  
The above list contains both provider identifiers, as well as the provider taxonomy code. The provider identifiers are assigned to the provider either by a specific payer or by a third party in order to uniquely identify the provider. The taxonomy code is designated by the provider in order to identify his/her provider type, classification, and/or area of specialization. Both, provider identifiers and provider taxonomy may be used in this field.  
The Rendering Provider is the person or company (laboratory or other facility) who rendered or supervised the care. If the provider does not have an NPI number, enter the appropriate qualifier and identifying number in the shaded area. There will always be providers who do not have an NPI and will need to report non-NPI identifiers on their claim forms. The qualifiers will indicate the non-NPI number being reported. |
| 24J    | Rendering Provider ID Number (Lines 1-6) | **Required**-The individual rendering the service should be reported in 24J. Enter the non-NPI ID number in the shaded area of the field. Enter the NPI number in the unshaded area of the field.  
The Rendering Provider is the person or company (laboratory or other facility) who rendered or supervised the care. |
| 25     | Federal Tax ID Number | **Optional**-Enter the “Federal Tax ID Number” (employer ID number or SSN) of the Billing Provider identified in Item Number 33. This is the tax ID number intended to be used for 1099 reporting purposes. Enter an X in the appropriate box to indicate which number is being reported. Only one box can be marked.  
Do not enter hyphens with numbers. Enter numbers left justified in the field. |

</table>
12. Terminology

**Average Wholesale Price (AWP):** Either the suggested wholesale price obtained from the manufacturer or labeler, if published, or the price commonly charged by wholesalers as determined by survey, and published in drug compendia, and updated at least twice per month.

**Compound Prescription:** A pharmaceutical product prepared by the pharmacist using more than one ingredient.

**Drug efficacy study implementation (DESI) drugs** means pharmaceuticals found to lack substantial evidence of effectiveness as determined by the Food and Drug Administration (FDA) and also includes identical, related or similar (IRS) drugs.

**Dispensing Fee:** A payment for the pharmacist's service of dispensing medication.

**Federal upper limit (FUL)**

**General Public:** Individuals purchasing pharmaceuticals at the usual and customary retail price.

**Healthcare Common Procedure Coding System (HCPCS):** A uniform method for health care providers and medical suppliers to report professional services, procedures, and supplies.

**Legend Medication:** A medication which is dispensed only with a prescription from a licensed practitioner.

**Maintenance Medication:** A pharmaceutical prescribed for routine continuous daily therapy for at least 120 days.

**Medicaid:** The Title XIX and Title XXI programs administered by the department, which makes medical assistance available to eligible individuals.

**Non-legend Medication:** A medication prescribed by a licensed practitioner, which is normally purchased over the counter.

**Parenteral:** Drug administration other than by the mouth or rectum, such as by injection, infusion, or implantation.

**Pharmacist:** "Pharmacist" as defined in RSA 318:1, VII.

**Pharmacy lock-in program:** A program established to prevent members from obtaining excessive quantities of, or from inappropriately using, prescription drugs through multiple pharmacies.

**Practitioner:** “Practitioner” as defined in RSA 318:1, XV.

**Prescription:** “Prescription” as defined in RSA 318:1, XVI.

**Prior Authorization:** The process by which a prescriber seeks approval from DHHS to make payments for drugs which are considered to have a high potential for misuse or abuse, are high cost, or should be monitored for correct adherence to clinical protocols.

**Member:** Any individual who is eligible for and receiving medical assistance under NH Medicaid.
Usual and customary: “Usual and customary” as defined in RSA 126-A:3 III.(b).

Wholesale acquisition cost (WAC): The drug manufacturer’s list price to wholesale distributors or direct purchasers, not including prompt pay or other discounts, rebates, or reductions in price, as reported in wholesale price guides or other publications of drug or biological pricing data.
